HealthConnect Ghana: English text for translation

These are the new lines added to HealthConnect since your last translation. Please write the translation of each line in the empty column. Keep the number, so we can put each translation in the right place.

• Keep translations short: most of them appear on buttons on small phone screens.
• Leave anything in {curly brackets} exactly as it is. The app fills it in (for example {facility} becomes the clinic's name).
• Grey notes say what appears next to a word on screen. They do not need translating.
• Medical short forms such as BP, RDT, ORS and CHV can stay as they are.
