HealthConnect Ghana: English text for translation

This is every piece of English text in the HealthConnect app. Please write the translation of each line in the empty column. Keep the number, so we can put each translation in the right place.

• Keep translations short: most of them appear on buttons on small phone screens.
• Leave anything in {curly brackets} exactly as it is. The app fills it in (for example {facility} becomes the clinic's name).
• Grey notes say what appears next to a word on screen. They do not need translating.
• Medical short forms such as BP, RDT, ORS and CHV can stay as they are.

Signing in and passwords

No.	English	Translation
1	Connecting rural communities to care	
2	Works on low-cost phones, even with weak signal	
3	Patient records protected by role-based access	
4	Fast referrals from village to facility	
5	Welcome back	
6	Sign in with the account your supervisor gave you.	
7	Username	
8	Password	
9	Sign in	
10	Signing in...	
11	Demo accounts (fake test data only)	
12	Set your own password	
13	you are using a temporary password. Choose a new one before you continue. comes after the person's name, e.g. Ama Mensah: you are using...	
14	Temporary password	
15	New password	
16	At least 8 characters, with a letter and a number. Not your username.	
17	Type the new password again	

No.	English	Translation
18	The two new passwords do not match.	
19	Save new password

Video call

No.	English	Translation
160	is calling about [name] is calling about [patient number]	
161	Join call	
162	Starting camera...	
163	Waiting for the other person to join...	
164	Connecting...	
165	Connected with followed by a person's name	
166	The other person hung up.	
167	Could not use the camera/microphone. Allow access in the browser and try again.	
168	Mute	
169	Unmute	
170	Audio only	
171	Video on	

No.	English	Translation
172	Hang up	

Ghana Health Service (GHS) officer dashboard

No.	English	Translation
173	Disease surveillance	
174	Anonymised totals from CHV visits across districts, last 7 days.	
175	No names or patient details are ever shown. Counts of 1-4 appear as "<5".	
176	Updated followed by a date and time	
177	Visits (7 days)	
178	HIGH risk (7 days)	
179	Referrals (7 days)	
180	Outbreak alerts	
181	No outbreak alerts this week.	
182	Outbreak alert	
183	Next 2 weeks: chance of an outbreak	
184	Statistics from the last few weeks, not machine learning. Assumes the recent trend continues; small numbers are less certain. Supply amounts are examples (1 per expected case), not GHS guidance.	
185	No outbreak likely in the next 2 weeks.	
186	High chance	
187	Possible	
188	Expected in the next 2 weeks: followed by a number	
189	outbreak level e.g. outbreak level 10 a week	

No.	English	Translation
190	a week e.g. 10 a week	
191	Prepare: followed by an amount and a supply, e.g. Prepare: ~12 amoxicillin courses	
192	a few	
193	rising	
194	steady	
195	falling	
196	malaria rapid tests and treatment courses	
197	ORS sachets and cholera rapid tests	
198	meningitis tests and antibiotic courses	
199	measles tests and vitamin A doses	
200	amoxicillin courses	
201	cases this week comes after a number, e.g. 12 cases this week	
202	usual followed by a number, e.g. usual ~4	
203	Possible conditions by district (last 7 days)	
204	Darker = more cases. Click a cell to see its 8-week trend.	
205	District	
206	Visits	
207	Hover or tab to a cell for details.	
208	Weekly cases, oldest on the left. This week in blue; dashed line = usual level.	
209	This week	
210	Export last week for DHIMS2	
211	Simulated: DHIS2 format file, not sent to DHIMS2	

No.	English	Translation
212	Map: last 7 days by district	
213	Bubble area = number of cases, placed at the district capital (never patient locations). Click a bubble to see its trend.	
214	What to map	
215	<5 (exact number hidden)	
216	Hover or tab to a column for details.	
217	Malaria	
218	Cholera	
219	Meningitis	
220	Measles	
221	Pneumonia	
222	Hypertension	
223	weeks ago comes after a number, e.g. 3 weeks ago
